

Starlines™

What's NU at BKU!

Curriculum has expanded with our building!

Over 700 graduates have walked through our doors in the past six and a half years to learn more about B-K Lighting, Teka Illumination and Star Finishes. Our desire to educate our profession about our extraordinary product line by inviting them to our factory, sharing our knowledge and expertise is our Promise to all who attend.

Welcome additions to this semester's roster were the Teka Illumination class and our very own Etendue Cafe provided catering.

Graduates of the Spring 2008 NU Class experienced the best of B-K Lighting in our newly constructed facility. BKU is designed with the intent to make this a First Class experience and we delivered as promised.

Our next BKU semester will be November 13-16, 2008. If you are interested in attending contact your B-K Lighting Customer Service Representative or Kathy Lockhart for more details.

B-K Lighting and Teka Illumination Join Forces with California Lighting Technology Center

We are proud to announce a new partnership with California Lighting Technology Center. Established through a joint effort of the California Energy Commission and the University of California, Davis, the California Lighting Technology Center conducts both cooperative and independent activities with lighting manufacturers, electric utilities and the design and engineering professional communities.

B-K Lighting and Teka Illumination are excited to form this partnership with California Lighting Technology Center. We are looking forward to combining our resources to facilitate and further the education of future lighting technologies and increase efficacy by developing more efficient lighting to help reduce energy costs.

Dr. Michael Siminovitich, Director of CLTC and Doug Hagen, President /CEO of B-K Lighting

A Change Did Them Good!

Lou Long, Sales Representative from Kirk Sommers Sales in Redland, CA (pictured above left) is our Grand Prize Winner of the "Change Will Do You Good Sweepstakes." Lou and her winning specifier, Irwan Yowanto (above, right) from CWA & Associates in Rancho Cucamonga, will set sail for the Panama Canal in the near future. Our vacation package includes airfare and cruise for four to the Panama Canal.

Our "Change Will Do You Good Sweepstakes" was a result of our qualified sales representatives demonstrating the two newest products in our B-K Lighting and Teka Illumination line (Universal Power Modular™ and Arcade Series™ respectively) to their specifiers, contractors and distributors.

Congratulations to Lou and Irwan! B-K Lighting and Teka Illumination are grateful to dedicated sales representatives and specifiers like you! ★

CORNER

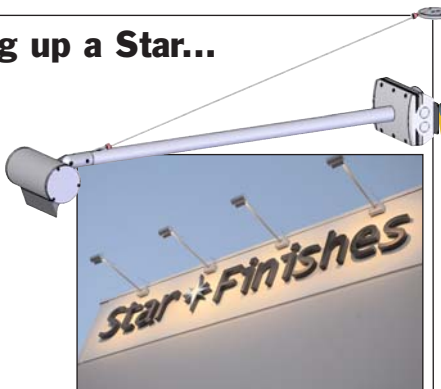

Lighting up a Star...

CUSTOM

Here we spotlight a Yosemite fixture with a 42" stem mounted on UPM3. Because the fixture could not support itself, structural support was provided using aircraft cable. It is an innovative way to address the length and weight issue of a stout fixture.

Custom#: CUS-1793-97
Project: Star Finishes, Madera, California
Specifier: B-K Lighting, Madera, California
Sales Rep: B-K Lighting, Madera, California

Please save this in the "Custom" section of your B-K Lighting binder
