B-K Visits Beantown!

The AIA 2008 National Convention and Design Exposition

B-K Lighting and Teka Illumination visited Boston May 15-17 for the 2008 American Institute of Architects (AIA) National Convention and Design Exposition. Boston's seamless integration of historical and modern design made it the ideal locale for exploring this year's theme, "We the People."

The theme encouraged an open exchange of ideas with peers and industry leaders on the architect's role in society and the power of architecture on behalf of all people. Such a sprawling, important topic was a natural fit for B-K Lighting and Teka Illumination. At the forefront of today's lighting industry with the most innovative technologies, B-K and Teka gladly took the opportunity to showcase the latest BKSSL products.

B-K Lighting and Teka Illumination would like to extend warm thanks to Rick Snow, Chad Roach

B-K Lighting in Boston (clockwise from top left): Ron Naus, Executive Vice President; Karen Duffy, Eastern Regional Sales Manager; Ryan Berrios, Technical Sales; Caroline Key, New Product Development; and Becky Carlson, Marketing Manager.

and Miriam Andrews of NE Light for making us feel welcome in their hometown. Special thanks goes out to Miriam, who spent an entire day assisting AIA attendees and educating them about our products. Your enthusiasm was outstanding!★

What a Ride!

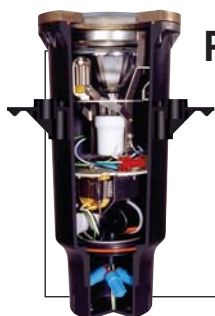

Donna Auer, Sales and Specification Representative for Arizona Lighting, was the grand-prize winner of our Mini Cooper giveaway celebrating the introduction of our Mini Micro™ product line. Donna showed her gratitude by ordering customized license plates with a special message for B-K Lighting. Needless to say, we were genuinely pleased when we received the news. Thanks Donna!★

Do you need Credit?

B-K Lighting is a proud sponsor of the McGraw Hill Construction Continuing Education Center. You can earn one LU hour by visiting <http://continuingeducation.construction.com> and clicking on "Sustainable Landscape Lighting Systems." Once you have completed our course, you'll be able to identify the advantages of efficient outdoor lighting and specify quality, sustainable fixtures from light source to powder coat.

Learn on!★

Precision2 adds yet another patent!

One of our most successful in-grade fixtures just got better. B-K Lighting is proud to announce that Patent Number 7,370,988 was issued by the United States Patent Office on May 13 for the Precision2's vacuum-sealed interior. Our four-time patented in-grade fixture has been recognized for its ability to maintain a vacuum seal between the fixture's interior and the atmosphere. Precision2's patented housing design effectively prevents water entry into the water sensitive areas of the luminaire. By far, it's the best choice for an in-grade fixture to date.

CUSTOM CORNER

Amazing Custom Color

Installed at the newly renovated Potawatomi Casino in Milwaukee, Wisconsin, these LED downlights use a Color Kinetics MR16 LED bi-pin lamp. Each fixture illuminates a frosted dome.

Custom#: CUS-1242-23

Project: Potawatomi Casino, Milwaukee, Wisconsin

Specifier: Marty Peck, Creative Lighting Design

Sales Rep: Bob Schuler, TLS Erickson
