2009 Guidelines for Specification Integrity

In 2000, The International Association of Lighting Designers (IALD) in conjunction with the Lighting Industry Resource Council (LIRC), published a comprehensive set of recommended actions that design professionals can take to build and preserve a specification of high integrity. As a corporate member of the LIRC, B-K Lighting + TEKA Illumination are fully committed to supporting this important work.

An accredited presentation of the Guidelines for Specification Integrity is now available, and may be given by your Regional Sales Manager. This presentation is registered with the AIA/CES for continuing professional education. To schedule a presentation in your area, please contact Becky Carlson at 559-438-5800 or via email at becky.carlson@bklighting.com.

An online copy of the Guidelines (rev. 2009) is now available online. Visit our website at www.bklighting.com/iald for a direct link to this informative PDF.

Printed copies are also available directly through B-K Lighting. For your copy, please contact Eddie Cadena at 559-438-5800 or via email at eddie.cadena@bklighting.com.

B-K LIGHTING smartsweepstakes Monthly Winners!

Our monthly winners in the SMART SWEEPSTAKES took full advantage of the new Mini DriveStar™/iLUME™ and TEKA High Light™ sample cases! All of our lucky winners will receive a fabulous prize from our prize vault! Congratulations Jason and Dominique!

Dominique B. Hirsiger (Specifier)
ASD

Easy to Win!

Showing the new or updated sample cases can make you a winner!
Show your cases then visit www.bklighting.com/sweepstakes and enter to win today!

Green Team Tip

Reducing your speed to 55 mph from 70 mph could increase your fuel efficiency by 23 percent. There's a good reason to drive the speed limit. ★

Save the Date

July 14-15 Lights in the City Denver, CO	July 17-19 GAASLA Savannah, GA
July 23-25 FLASLA Expo Fort Myers, FL	September 14-16 CTA Lighting Forum, Grand Rapids, MI

Don't forget!

Don't forget to retrofit your UPM sample case!
Take a photo of your updated sample case and upload it at www.universalpowermodule.com/retrofit
You'll receive some swag from our B-K Prize vault.
It's that easy!

CUSTOM CORNER Illuminating the Met...

CUSTOM

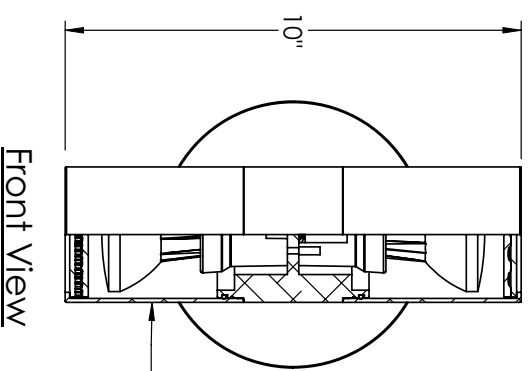

Because the Metropolitan Apartment building existed prior to exterior lighting being added, an electrical junction box could not be set into the facade. The custom canopy allows a single conduit penetration of the wall, to a surface mounted weather tight splice box to safely make the electrical splices to the up and down lamps of Metal Halide Olympus Fixture.

Custom#: CUS-1627-39
Project: Metropolitan Apartments
Philadelphia, PA
Specifier: The Lighting Practice
Philadelphia, PA
Sales Rep: Illuminations, Newtown Square, PA
Please save this in the "Custom" section of your B-K Lighting binder
