NITE STAR

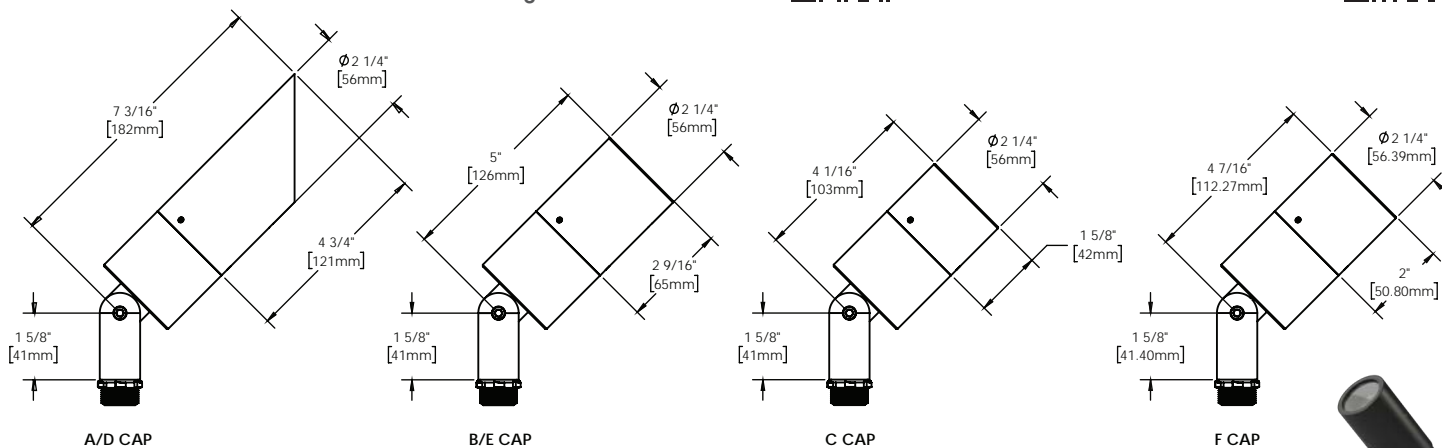

The latest iteration of our immensely popular Nite Star fixture. This rework converted the prior 3-LED source board to a single LED source with optimized performance and distributions. With sustainability and modularity always on our mind, the new internals are compatible with existing fixture bodies and can easily be installed into previous models that came with the original 3-LED source.

NITE STAR ESSENTIALS

A continuation of our original Essentials line of products, the new Nite Star Essentials LED is designed to provide you with just that: the essentials of a high performing, quality, long-lasting luminaire. It's the perfect solution when the extras aren't needed and budget constraints are a reality.

**Non-dimming*

B APPLICABLE TO BOTH MODELS

7W ARTI STAR ALSO NOW AVAILABLE WITH THE NEW SINGLE SOURCE LED

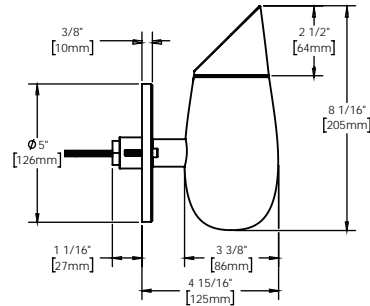

RIO

WALL MOUNT

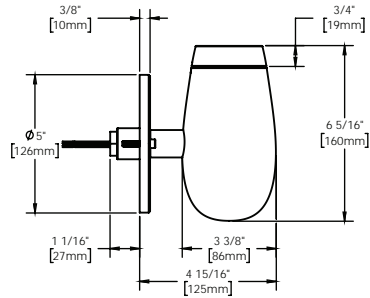

The **RIO** Line Continues to Grow.

Introducing new mounting options and configurations that expand Rio's architectural versatility. From wall to flood applications, Rio delivers cohesive performance and design across an expanding list of environments.
